

WORKING WITH THE PRACTICE SITE

This iTester Practice Site is intended for general orientation for new Portal users. DTCs, STCs (known in Oklahoma as a BTC), and ITCs can navigate through key portal administrative tasks and menus, including viewing students and classes, scheduling test sessions, viewing test session details and printing student log-in tickets. Some actions required to set-up and administer operational tests cannot be completed in the iTester Practice Site. The iTester Practice Site is used by a variety of clients, thus the iTester Practice Site user interface and menus may differ slightly from the OSTP Data Portal.

Users can navigate to <https://intro.emetric.net/> and will be presented with a page similar to the following:

Click **Log In** to navigate to the sign in page and log in using one of the demo accounts listed below.

The image shows the sign-in page for the iTester Practice Site. At the top, it says "Welcome to the iTester Practice site. Please log in below to get started." Below this is the iTester logo. In the center, there is a white rounded rectangle containing two input fields: "Username" and "Password". Below the input fields is a dark teal circular button with the text "Sign In" in white. At the bottom of the page, there is a link that says "Forgot your password?"

- Filter the Test Sessions table by selecting an option from one or more of the following drop-down lists:
 - Organization (district or school)
 - Program Name
 - Content Area
 - Test Name
- Click the green **Schedule New Test Session** button to schedule a new test session.
- Click **Exports** to see **Export Test Status** and **Export Students Not Scheduled**.

Export Test Status will export a CSV file listing every student and their test status per session. **Export Students Not Scheduled** will download a CSV file listing all students who are enrolled in the portal but not scheduled to a test session.

- Sort** columns by clicking on a column heading. Click the search icon (🔍) next to the column heading and type the desired search criteria.
- Click **View Details/Student Logins** to view the Test Session Details page.
- Click **Delete** to delete a test session. Only sessions that were scheduled by you and have **NOT** yet started can be deleted. Once a student has logged in, the test session cannot be deleted.

SCHEDULING A TEST SESSION

To practice scheduling a test session:

1. In Administration click on **Test Sessions**.
2. Select a school from the organization drop-down menu.
3. Select the **Spring Operational** program from the program drop-down menu.
4. Select **ELA** from the subject drop-down menu.
5. Select the **Demo Training Test** from the test drop-down menu.
6. Click the green **Schedule New Test Session** button.

The **Schedule Test Session** page will display a list of classes available to schedule.

7. Select one or more classes to schedule, click **Select All** to schedule the test for all classes in the list. Multiple classes may be assigned to the same test, and different forms of that test will be automatically assigned to students within the class.
8. Click **Schedule** when you are done to save the test session or **Cancel** to discard. The start date and end date fields are fixed.

Note: New test sessions will need to be created every day; test sessions are wiped nightly.
